# Lynnfield Library

## FEASIBILITY STUDY

### Priorities

#### Library Programs/Group Meetings

- Create alternates for **additions** to building that would expand **programming and meeting** capabilities

#### Repairs

- Maintenance/Safety and Building Code issues  
Roof, Water in Basement, ADA compliant  
Bathrooms and Ramps, Electrical issues etc...

#### Mezzanine

- Noise abatement between second floor  
balcony meeting area and main reading room

#### Staff Space

- Improve staff work areas and service desks for  
efficiency and service

#### Site Accessibility

- Improve cross walks and handicap access to the  
building.

#### Children's

- Improve program space within children's  
reading area

#### Off-Site

- Consider whether any program can be located  
off-site to make space for other functions

#### Building Character

- Preservation of the facade to the extent it  
reflects the historic nature of the common.

#### Collections

- Storing DVD's and movies in other areas to  
open that shelf space.

#### Spatial Quality

- Keep/preserve the open space on the main  
floor.

# Lynnfield Library

## FEASIBILITY STUDY

# Options

**OPTION 1    Repairs & Code Compliance**

**OPTION 2    Build on Option 1, Incorporating Several Library Service Enhancements**  
**Expand in Rear Courtyard**  
**Reclaim Attic Space in Back**

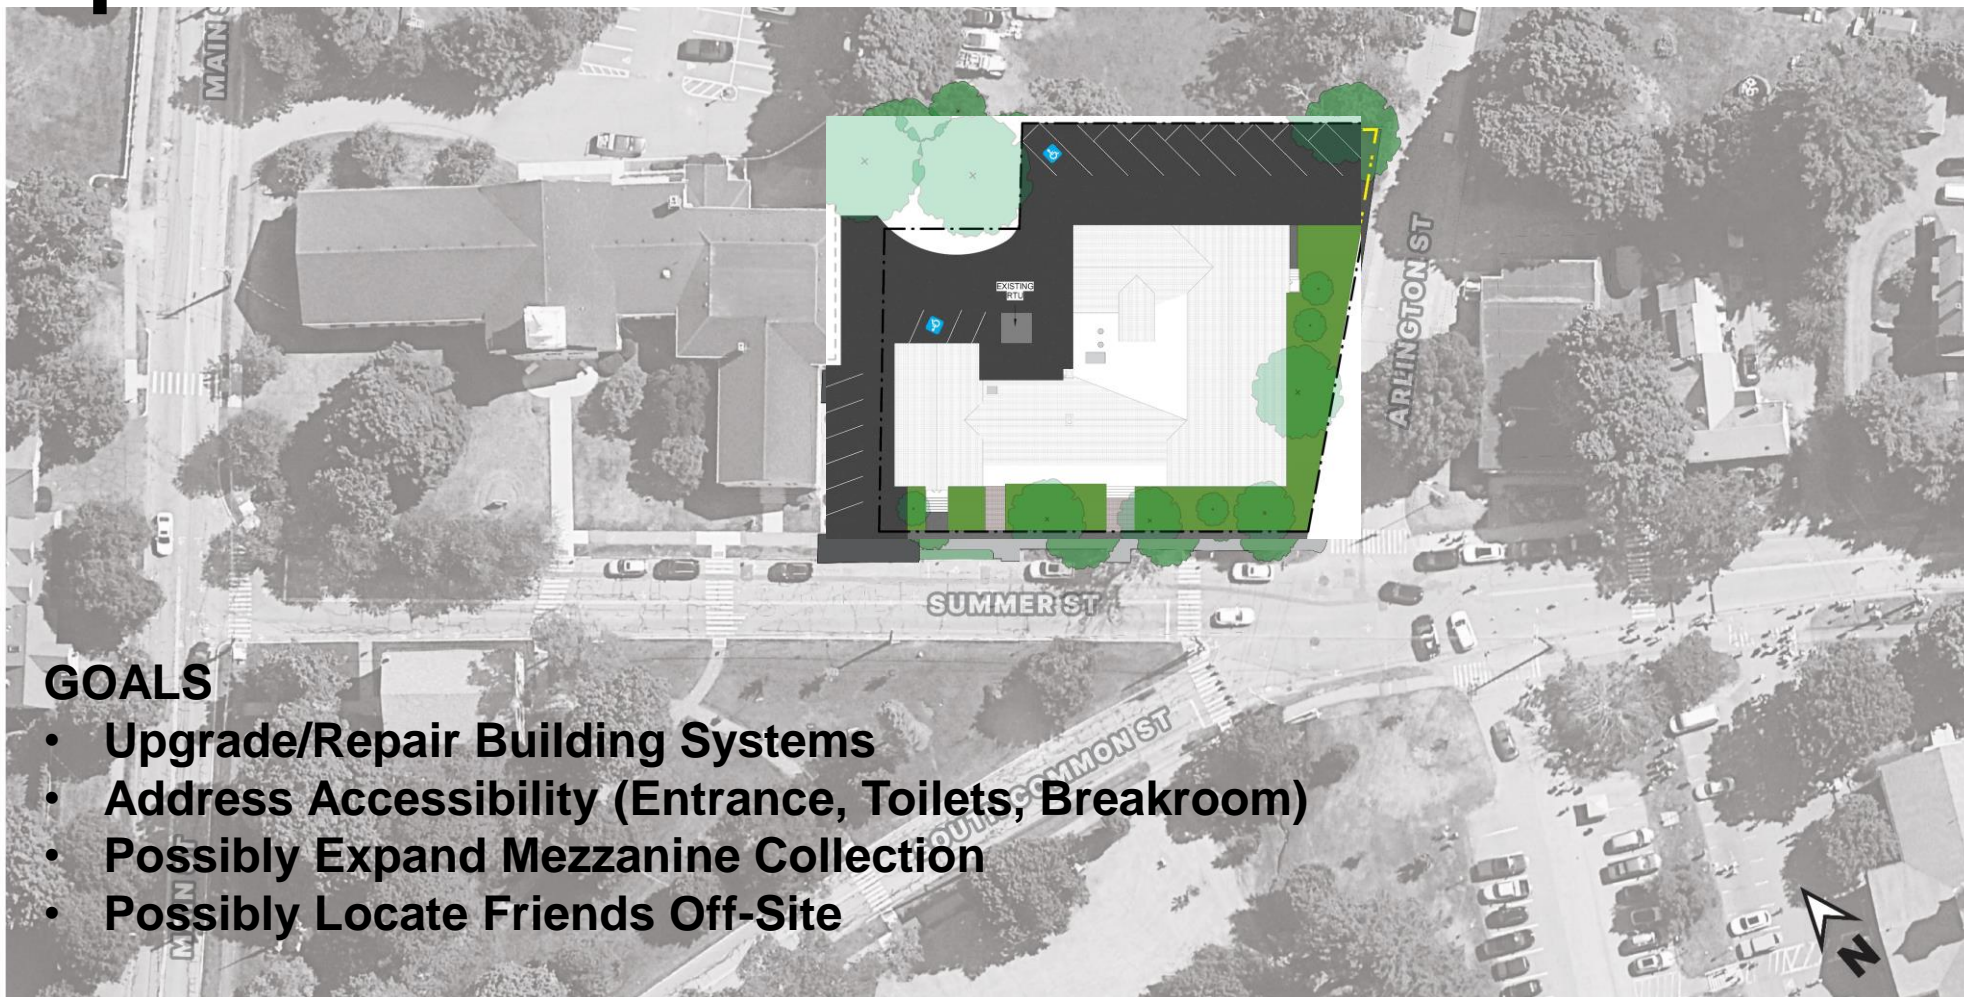

**OPTION 3    Build on 1 & 2, Incorporating More Library Service Enhancements**  
**Reclaim Additional Attic Space in Front**

# Lynnfield Library

## FEASIBILITY STUDY

### Option 1 – CODE COMPLIANCE

#### GOALS

- Upgrade/Repair Building Systems
- Address Accessibility (Entrance, Toilets, Breakroom)
- Possibly Expand Mezzanine Collection
- Possibly Locate Friends Off-Site

### **RENOVATION ASSUMPTIONS**

- **Envelope Upgrades**
  - Replacement Windows, Repaint siding, selective replacement of siding as required, Overall exterior restoration
- **Systems**
  - All replacement systems – mechanical, electrical, plumbing, fire protection, technology (existing boilers assumed to remain)
- **Finishes**
  - Replacement interior finishes assumed
  - Carpet, Tile, Ceilings, Paint
- **Site Work**
  - Limited site work includes top coat and restripe parking, new rear HC ramp phase 2&3, upgrades to front ramp all options, pedestrian paving options 2&3
- **Waterproofing/Damp proofing**
  - Assumed for basement walls and slab
- **Mezzanine partition**
  - New glass partition at existing mezzanine assumed for option 1
- **Furniture & Equipment**
  - Allowance carried for new furniture and select loose technology

# Lynnfield Library

## FEASIBILITY STUDY

### **COSTS** – Conceptual Cost Model Assumptions

#### **ESTIMATE**

*Completed by PM&C based on review of drawings and understanding of current market*

- **Schedule**
  - Assumes design late 2024 – summer 2025
  - Assumes bidding fall 2025
  - Assumes construction early 2026 – Spring 2027
- **Bidding / Procurement**
  - Estimate assumes Design / Bid / Build procurement and construction
- **Phasing**
  - No phasing, empty building is assumed for estimate
- **Design Contingency**
  - Construction cost estimate includes a 20% design contingency typical at feasibility level design
- **Construction Contingency**
  - A 10% contingency is carried below the estimated construction cost for change orders and unforeseen construction scope – this is an industry standard

#### **TOTAL PROJECT COST BUDGET**

- **Soft costs for fees and administrative costs**
  - Carried as a typical percentage + allowance for related costs
- **Soft cost for FFE & Tech**
  - Based on SF estimate for new furniture and loose technology
- **Overall Contingency**
  - Contingency carried on overall project cost to cover changing market conditions and as a hedge against more scope clarity at later phases of development
- **Temporary Library**
  - Library moves out in the cost model assumption and costs should be carried for moving, possible lease, possible fit-out.

## FEASIBILITY STUDY

### COSTS

#### OPTION 1

Renovation Only 15,000 sf +/-

#### OPTION 2

Rear Addition 19,000 SF +/-

#### OPTION 3

Rear Addition + Expand 2nd Floor 20,500 SF +/-

#### Construction

Estimate PM&C 3-1-24	\$6,380,486.00	\$9,680,200.00	\$10,630,554.00
Owners Const Contingency	\$638,048.60	\$968,020.00	\$1,063,055.40
Sub-total	\$7,018,534.60	\$10,648,220.00	\$11,693,609.40

#### Soft Cost

Design & Management Fees	\$1,212,292.34	\$1,839,238.00	\$2,019,805.26
Reimbursable Misc Costs	\$300,000.00	\$300,000.00	\$300,000.00
Furnishings + Tech/Equip	\$900,000.00	\$1,100,000.00	\$1,200,000.00
Sub-Total	\$2,412,292.34	\$3,239,238.00	\$3,519,805.26
Contingency	\$241,229.23	\$323,923.80	\$351,980.53
Sub-Total	\$2,653,521.57	\$3,563,161.80	\$3,871,785.79

Project Total	\$9,672,056.17	\$14,211,381.80	\$15,565,395.19
Overall Contingency	\$483,602.81	\$710,569.09	\$778,269.76
Total Project	\$10,155,658.98	\$14,921,950.89	\$16,343,664.95

#### Temp Library Assumption

Assume Lease / move / fit out	\$1,000,000.00	\$1,000,000.00	\$1,000,000.00
-------------------------------	----------------	----------------	----------------

Total	\$11,155,658.98	\$15,921,950.89	\$17,343,664.95
-------	-----------------	-----------------	-----------------

**BUDGET OPINION RANGE**

**\$10m to \$12m**

**\$15m to \$17m**

**\$16m to \$18m**
